How to Fix the Purge for WMI Monthly Tables for NSI 10.2 ?

Date: April 20th, 2011.

Problem:

The purge for WMI monthly tables deletes too many data : it keeps only data for the last <n> days instead of the last <n> months.

Solution:

Follow the steps below:

Table of Contents

| | |
|----------------------------------|---|
| Section 1: Install the Fix | 2 |
| A. Download the fix | 2 |
| B. Apply the fix | 2 |

Section 1: Install the Fix

A. Download the fix

1. Download the **Fix_WMIPurge_NSI_10.2.zip** zip file at the following URL:

http://support.clickndecide.com/downloads/Patches/Fix_WMIPurge_NSI_10.2.zip

2. Extract the **sqlserver.xml** file and copy it in the **C:\Program Files\ Click and DECiDE\NSI\sql** directory.

B. Apply the fix

1. Start the **Log Source Configuration: Start>All Programs>Click and DECiDE>Network Security Intelligence>Log Source Configuration**.
2. Click on the **Settings...** button in the **Database** section, and check the **Update Database** option.
3. Click on the **OK** buttons to apply your changes.
